Save 20% on Wax & Waxing Supplies in June

Kick start summer with skin soft and smooth with Cirepil Wax. Wax treatments are for both men and women. Begin and finish every waxing experience with the proper Waxing Accessories & Oils and Lotions.

HARD WAXES:

Cirepil Blue contains soothing jojoba oil and is a no-strip disposable wax. This wax attaches itself to the hair and not the skin, giving it a reputation as the original "shrink-wrap" wax. It may be used over the whole body, but is more economical to use on eyebrows, lips, necklines, bikini, and underarms areas. It is the perfect choice for sensitive skins with resistant hair.

Elva Rose combines the polymerization of the blue wax with a creaminess. It works particularly well in sensitive areas with fine to medium hair such as underarms, bikini, and the face.

Greenepil moisturizes and hydrates the skin after the waxing service. Low temperature wax, perfect for all skin types, most suitable on sensitive areas of the body (face, underarms, bikini, and Brazilian). Superior results on all hair textures and lengths, even short coarse shaved hair. Made of 90% plant based ingredients. Its soft texture is pleasant to work with. Apply in thin, even layers for cost superior results.

Cristalline is fragrance-free, hypoallergenic and is excellent for sensitive skin. Paraffin enables thinner application and a non sticky treatment. Having the very low melting point makes this wax ideal for all areas. This wax is a transparent fluid gel texture and does not require strips.

STRIP WAXES:

Cristal Ocean is hypoallergenic fragrance free, microcrystalline formula. Best for sensitive skin! But suitable for all skin types, superior results on short coarse hair but effective on all hair lengths and textures. Cost effective, goes on very thin, leaving skin smooth, without residual wax on the skin. Speed waxing just got faster.

Ease is a 100% natural wax without the stickiness of most waxes. It is especially economical for large areas of the body such as the legs, arms, chests, and backs but may also be used on the face and other areas. Ease leaves the skin smooth, and easy clean-up gives you the easiest strip wax available.

Forte embodies strength - this wax should be applied thinly and performs best for removing medium to coarse resistant hair. No other wax even comes close to this honey colored strip wax.

Nacree Blanche may be used at a very, very low temperature. Pleasantly smelling hibiscus brings tonifying and smoothing properties. The wax glides on the skin and is very easy to remove with non-woven strips. The skin is left very smooth and not sticky.

Vegetale is proven to hydrate and moisturize the skin after waxing service. Low temperature, fragrance free wax for use on all skin types, hair textures and lengths. Apply in thin uniform layers for cost effective results on larger areas of the body (legs, chest, back and arms). Made with 100% natural plant extract ingredients. Chlorophyll for its color.
